Scan to use the online configurator for the DS490

### Wall Fixing Options

#### Adjustable Wall Profiles (Supplied as standard)

Offering 12mm of adjustment (+/- 6mm each side), this option is fitter-friendly and can compensate for out of true walls. AQATA's Survey & Installation service is not required when choosing this wall fixing option.

#### Slimline Wall Channel

This option has no adjustment and therefore walls, floors and shower trays must be entirely level and true to ensure accurate installation. AQATA's Survey & Installation service is optional when choosing this wall fixing option, but recommended for a worry-free solution.

#### Bracket Only

Featuring mirror polished finish brackets for a totally frameless look.

Wall and bath rim must be entirely level and true. Due to the nature of this fixing option, AQATA's Survey & Installation service is required. Additional charges will apply.

Please state wall fixing option when ordering.

(See page 74)

## DS491

Bath Screen - Outward Opening

Dimensions	Codes		Price		
	A	B	(+LHF & RHF)	Ex VAT	Inc VAT
