**[www.aqataluxuryshowers.co.uk](http://www.aqataluxuryshowers.co.uk)**

Traditional solid brass range of showers, basin and bath taps manufactured in Britain since 1998. Hand assembled in Leicestershire using the finest materials, including prestige quality porcelain ceramic indices and levers which are hand crafted in Stoke, the home of pottery.

All brass components are hand finished and polished in the UK, making everything about Aqata's traditional product journey, British.

This comprehensive range includes exposed and concealed thermostatic shower valves, deck and wall mounted basin taps, deck and floor mounted bath shower mixers. The traditional taps benefit from quarter turn ceramic disc cartridges for a smooth function and longer life span.

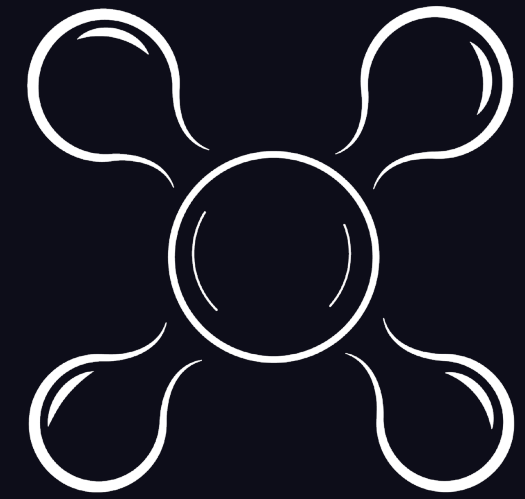

Aqata's ever popular brassware portfolio includes five luxurious soap dispensers available in various finish options to complement any kitchen space or spa.
