What We Do

Trusted by consumers and showrooms for nearly 40 years, Aqata boasts unrivalled innovation, quality and craftsmanship. Our comprehensive range of showering products are designed and made from start to finish in the UK at our manufacturing facility in Hinckley, Leicestershire.

Our range offers endless possibilities covering all shapes, styles and showering space sizes. Our selection of handmade glass & frames come in a wide variety of colour finishes and glass tints.

As well as our popular profiles, we offer a true bespoke made to measure service accommodating for the most discerning of customer needs.

Aqata continues to innovate and design products for the bathroom with an increasingly varied selection of products including shower valves, taps, trays and matching bathroom accessories to complete the look.

Design Solutions

THE FINISHING TOUCH

10mm Safety Glass

Bespoke sizes
available

Includes ClearShield
ECO GLASS

Aqata are able to offer various glass options on most models in the Design Solutions range, giving you more freedom when it comes to designing the perfect showering space.

Whether you are looking for a crystal-clear screen or a tinted enclosure to complement the look of the room, the Aqata Design Solutions range allows you to get creative.

WHAT'S YOUR COLOUR?

FINISH OPTIONS

With 6 different colour options to choose from,
Choose a colour that compliments your bathroom interior.
All colour finish options are only available on 10mm products.

GLASS OPTIONS

8 glass options and a variety of etched designs are available
on all 10mm products to bring your shower space to life.
Etching is also available on 8mm products.

Simplicity is the ultimate Sophistication

Wall Fixing Options

Adjustable Wall Profiles (Supplied as standard)

Offering 12mm of adjustment (+/- 6mm each side), this option is fitter-friendly and can compensate for out of true walls. AQATA's Survey & Installation service is not required when choosing this wall fixing option.

Slimline Wall Channel

This option has no adjustment and therefore walls, floors and shower trays must be entirely level and true to ensure accurate installation. AQATA's Survey & Installation service is optional when choosing this wall fixing option, but recommended for a worry-free solution.

Bracket Only

Featuring mirror polished finish brackets for a totally frameless look. Walls, floors and shower trays must be entirely level and true. Due to the nature of this fixing option AQATA's Survey & Installation service is required. Additional charges will apply

Please state wall fixing option when ordering.

If choosing the slimline wall channel, use the minimum adjustment size in column A above for overall finished dimension.

Wall Fixing Options

Adjustable Wall Profiles (Supplied as standard)

Offering 12mm of adjustment (+/- 6mm each side), this option is fitter-friendly and can compensate for out of true walls. AQATA's Survey & Installation service is not required when choosing this wall fixing option.

Slimline Wall Channel

This option has no adjustment and therefore walls, floors and shower trays must be entirely level and true to ensure accurate installation. AQATA's Survey & Installation service is optional when choosing this wall fixing option, but recommended for a worry-free solution.

Bracket Only

Featuring mirror polished finish brackets for a totally frameless look. Wall and bath rim must be entirely level and true. Due to the nature of this fixing option, AQATA's Survey & Installation service is required. Additional charges will apply.

Please state wall fixing option when ordering.

(See page 74)

Coloured Finishes

Glass Options

10mm clear toughened glass supplied as standard.

Clear Plus glass available for a 20% surcharge.

Tinted glass options available including bronze & grey for a 20% surcharge. (See page 78)

Non Standard Sizes

Non-standard sizes are available. For made to measure options including increased widths, heights, angles, notches and rakes. (See page 82)

Spectra 8MM RANGE

8mm Safety Glass

Bespoke sizes
available

Includes ClearShield
ECO GLASS

The Aqata best selling and most popular Spectra 8mm semi-frameless range is available in various shapes and styles with a product to suit all showering space types. Bespoke options are available for limitless designs.

All Aqata products benefit from ClearShield ECO Glass giving your enclosure a long lasting protective barrier against staining and hard water deposits.

WALL FIXING OPTIONS

Products in the **Spectra** collection are supplied with adjustable wall profiles as standard. The **Design Solutions** range offers three wall fixing options, shown below. See imagery or details on individual product pages for details on wall fixing options available for a specific model.

Adjustable Wall Profile (AWP) Spectra

Supplied as our standard option

Offering up to a maximum 25mm of built-in adjustment (+/- 12mm if set at mid adjustment).

This option is fitter friendly and can compensate for out of true walls.

Slimline Wall Channel (SWC) Design Solutions

Available on selected models only (see product pages)

This option has no adjustment and therefore walls, floors and shower trays must be entirely level and true to ensure accurate installation.

AQATA's Survey & Installation service is optional when choosing this wall fixing option, but recommended for a worry-free solution.

Should you require no visible frame on your **Design Solutions** product, recessed wall channels can be supplied. Please contact the Sales Office for more details.

Adjustable Wall Profile (AWP) Design Solutions

Supplied as our standard option

Offering up to a maximum 12mm of built-in adjustment (+/- 6mm if set at mid adjustment).

This option is fitter friendly and can compensate for out of true walls.

Hinge/Bracket Only (H/BO) Design Solutions

Completely frameless option

Polished chrome wall brackets and/or hinges for a sleek look. This option has no adjustment and therefore walls, floors and shower trays must be entirely level and true to ensure accurate installation.

Due to the nature of this wall fixing option, AQATA's Survey & Installation service is required to ensure a perfect fit. Additional charges will apply for site survey.

STEADY BARS

Combining style and function, our range of steady bars (**supplied as standard excluding DS402 & DS403**) offer additional support for your AQATA product. Please refer to individual product pages for details on steady bar choices available

Steady bars are available in alternative coloured finishes should you choose this option for your **Design Solutions** product.

SB1

90 Degree Straight Steady Bar
Height from top of glass - 30mm

SB2

Recommended for DS402 & DS403

Towel rails can be fixed to any screen or enclosure to provide an additional practical bathroom accessory.

Remember to state your preferred handle option when placing your order.

Please note not all towel rails are not suitable for hinged doors.

Please note handle/ towel rail options are supplied in polished chrome as standard. Please ensure coloured finished options (if required) is clearly stated at the time of order.

GLASS OPTIONS

We pride ourselves on our endeavour to source the finest quality materials, to ensure that all products we manufacture are built to last.

CLEARSHIELD ECO-GLASS™

Supplied as standard on all AQATA enclosures, doors and screens, this unique product is applied to the inside of the glass and works just like 'non-stick' cookware, acting as a protective barrier on the surface of the glass.

KEY FEATURES & BENEFITS

- Resists staining from hard water deposits
- Saves time and effort and is easier to clean
- Keeps your shower looking like new for longer
- Eco-friendly for a more hygienic environment
- Does not support the growth of bacteria

The surface of award-winning ClearShield ECO-GLASS™ is chemically non-reactive. The ClearShield protection bonds to glass and lime scale and other dirt will build up only half as fast.

TERMS & CONDITIONS

You must register your product online at www.aqataluxuryshowers.co.uk/warranty/ to activate your warranty. The correct After-Care products must be purchased and used to maintain the ClearShield ECO-GLASS™ warranty. Please refer to your warranty form once you have purchased your product for further information.

GLASS ETCHING

AQATA's glass etching service offers a range of stunning etched designs.

For a contemporary look, modesty panels and all over etching can customise your enclosure and provide privacy.

AO All Over Etching

MADE TO MEASURE FEATURES

A - ANGLED PANELS & DOORS

The perfect solution for making the best use of awkward spaces, such as sloping ceilings in loft conversions.

B - RAKES

To overcome out-of-true walls that do not require an angled cut, a rake can be made to the glass.

C - INCREASED/REDUCED HEIGHT & WIDTH

Increased or reduced height and increased or reduced width can dramatically change the way your product looks and feels in the space you have available.

Please note: maximum height and widths dependent upon total weight of the glass. Please check with us prior to ordering.

D - NOTCHES

Ideal for enclosures sitting onto a bath or stud wall and to accommodate stylish seating and vanity areas.

STEAM ENCLOSURES

When designed to fully enclose the showering area, a steam sanctuary can be created. Please advise if required for steam.

MADE TO MEASURE

ANGLED PANEL

Need to work around awkward spaces?

No problem, our design team will work with you and your shower space to design an enclosure that fits perfectly. Whether that's working around permanent fixtures, increased heights, or angled ceilings. Aqata products are bound by no constraints.

INCLUSIVE DESIGN

Do you need accessible space?

Our design team can create an enclosure that suits you and your lifestyle. Creating sizable, easy access enclosures that hinge or fold to suit your individual needs.

SUPER BESPOKE

Want something super bespoke?

Aqata have almost 40 years of expertise in the showering industry and with an in-house design team and highly skilled craftsmen they know exactly how to create the perfect product for customers.

FOLDABLE ENCLOSURES

Need to fold your enclosure away after use?

With a range of hardware solutions, Aqata can design a space that can fold away after use to retain space in your bathroom.

Service includes on site adjustments, inspection and replacement of seals

SURVEY, TEMPLATE & INSTALLATION

For complete peace of mind, AQATA have a team of experienced installation engineers available to carry out the initial site survey through to full installation of your unique shower enclosure.

The three options of our Made to Measure service are:

OPTION 1 - MADE TO MEASURE

Working from your provided measurements, we can design and produce a Made to Measure enclosure.

Please refer to our Made to Measure section.

Please note: a hard wood template is required for angles. Please contact our Sales Office for advice on producing a template.

OPTION 2 - SURVEY & TEMPLATE

To ensure an accurate measure is carried out on the space you have available, an AQATA engineer will measure and template a Made to Measure enclosure ready for installation.

OPTION 3 - SURVEY & INSTALLATION

Let us look after everything and have our team of experienced installation engineers provide the complete service by measuring, templating and - once the enclosure has been manufactured - carrying out the installation.

Installation is only available if AQATA have carried out the site survey. Additional charges may apply following site survey.

Important Information

Following a site survey or submission of a template, it may become apparent that a proposed design is not suitable for manufacture. Wherever possible an alternative design will be proposed, however should no alternative be available the site survey charge will still be applied. Our quotations are based on your specification and accurate measurements (after installation of the shower tray and tiling).

PRODUCT & TECHNICAL INFORMATION

TECHNICAL SPECIFICATIONS

All products are built and tested in accordance with the relevant CE marking certification EN14428.

Products in the **Spectra** and **Design Solutions** ranges feature toughened safety glass manufactured in accordance with EN12150-1.

Aluminium sections are extruded from BS EN 755-2:2016 Aluminium, grade 6463-T5, to EN 12020-2:2016 dimensional requirements, polished and bright anodised to ISO 7599:2010

CARE & MAINTENANCE

Your product will provide you with many years of luxurious showering at home, when properly maintained. It is important to follow our recommended care programme.

- Squeegee and remove any water on the glass, frame and fittings after each use
- Do not allow lime scale to build up on the enclosure
- Use the ClearShield After-Care cleaner once a week to polish the glass and framework
- Do not leave neat cleaning products on the surfaces
- Do not use any "spray on and leave" cleaning products
- Do not use limescale remover on the frame
- Ensure any cleaning products are non-abrasive and between pH 4 & 8
- Do not allow paint stripper, nail varnish remover, spirits, dry cleaning agents, W.C cleaners or bleach to come in direct contact with surfaces

We sell a variety of products that can be used to clean and maintain your AQATA enclosure or screen. These can be purchased online at www.aqataluxuryshowers.co.uk

SHOWER TRAYS

Clean after every use with warm soapy water or mild detergent and wipe dry with a soft cloth.

Easy access waste trap should be removed and cleaned weekly, ensuring any debris is cleared.

WATER SOFTENERS

If you have a single cylinder water softener installed and are in a hard water area, there may be a reaction from the water on the glass. Softened water is generally higher in alkalinity and is therefore harmful. If you have a hot water storage tank installed, then conditions are even more aggressive than unsoftened water.

It is recommended that after removing excess water with a squeegee, a microfibre E-cloth® should be used to remove any remaining water from the glass and frame.

MEASURING & INSTALLATION

We strongly recommend the use of the AQATA Survey, Template & Installation service to ensure an accurate measure and perfect fit for ultimate peace of mind. This service must be used if opting for the hinge/bracket only fixing option on your Design Solutions product.

Surveying can only take place if the area is in a finished condition, with – where applicable – shower trays in place and tiling completed.

Walls must either be solid or have suitable stud work to support the weight of the product.

Please note: If a survey is attended and cannot be completed due to incomplete conditions as listed above, the site survey charge will still be applied.

Consider the site access available and dimensions when ordering large panels of glass. Please check dimensions on the relevant page when ordering products.

The position of other items that are to be installed after your shower enclosure should be considered, so as to ensure this does not impact operation (including W.Cs, basins, radiators etc.).

Our Technical Support Team will be more than happy to discuss your project with you at any stage, to ensure the desired outcome is achieved.

PRODUCT & TECHNICAL INFORMATION

USAGE

Water tightness is a key consideration when choosing your shower enclosure. AQATA products are approved for use with power showers, under normal showering conditions. Forcing water under pressure at seals and joints can cause water to escape.

Please consider the position of your shower head when designing your bathroom - ideally this should not be aimed directly at screens, panels and doors. (Positioning of shower heads on images in this brochure are for illustrative purposes only).

Dependent upon the power of the shower and the position of the shower head, water spray may extend beyond the length of shower screens and bath screens.

Install your enclosure in a well-ventilated area as steam and condensing vapour can result in mineral deposits/build up, as well as ensuring a suitable waterproof and sealed floor finish is used outside the showering area.

Some products can be suitable for use with steam. Please contact our Technical Support Team for more information.

BATH SCREENS

The rim of baths must be flat and level to install an AQATA bath screen. They are not suitable for roll top baths or stepped baths.

STEADY BARS

The type of steady bars supplied may vary depending on your enclosure dimensions and may differ from the images illustrated in this brochure. Our Sales Office are able to clarify which type of steady bar will be supplied once an order has been placed.

TOWEL RAILS

These should be used as an accessory only and should not be used as grab rails.

DIMENSIONS

All dimensions stated in this brochure are in millimetres (mm).

YOUR GUARANTEE

plus our terms and conditions

Where you can find us

GUARANTEE

AQATA bathroom products are manufactured to the highest standard. Our confidence in the quality and reliability of our products enables us to offer a lifetime guarantee* on all AQATA shower enclosures and a five-year guarantee on AQATA shower trays. This guarantee covers manufacturing or product faults and does not cover wear and tear or damage caused during fitting, inadequate or misuse. Spare parts are chargeable after two years. Please refer to our full guarantee for further details. Please ensure you register your products to validate your guarantee, as failure to do so will invalidate your guarantee. You can register online at www.aqataluxuryshowers.co.uk

COPYRIGHT

All material and illustrations included in this catalogue are the copyright of AQATA LIMITED and cannot be used without prior written permission and credit in any other publication, advertisement, correspondence, catalogue or brochure in any medium whatsoever, whether written or electronic, including the internet. For full details please refer to the AQATA Limited E-commerce Policy which can be found at www.aqataluxuryshowers.co.uk. All rights reserved.

DELIVERY CHARGES

Shower trays despatched without an enclosure will be subject to £40.00 net carriage charge (plus VAT). Orders for miscellaneous products (excluding trays) under the value of £200 including VAT will be subject to a carriage charge. Please ask for details.

CONTINUAL IMPROVEMENT

Our company policy is one of continual improvement and AQATA reserve the right to amend designs, specifications and prices without prior notice E&OE. Shower tray heights can vary due to manufacturing tolerances of + 5mm. The descriptions chrome, polished nickel, brushed nickel, polished gold, brushed gold, polished black or matt black when referring to AQATA shower enclosures apply to surface finishes only. All products are subject to availability.
